In fact, Loeb thinks the first interstellar object spotted passing through our solar system in 2017 could have been an extraterrestrial mothership. That year, an unusual interstellar object was ...

Pentagon officials have warned that an alien mothership in our solar system could be sending probes to Earth.. A recent report published by the US intelligence hub noted how "parent craft" ...

Mothership in our solar system 2024

Discovered as it was leaving the Solar System, "Oumuamua was unusual in that it appeared to be roughly cylindrical rather than potato-shaped as is usual for asteroids. It also appeared to ...

Specifically, Loeb thinks the first interstellar object spotted passing through our solar system in 2017, given the name Oumuamua, could be an extraterrestrial mothership.. Loeb says it didn't ...

New research paper, in draft form, comes from the Pentagon's All-Domain Anomaly Resolution Office. Pentagon officials said in a draft document last week that aliens could be visiting our solar system and releasing smaller probes like missions conducted by NASA when studying other planets. A draft research report authored by Sean Kirkpatrick, the director of the ...

The official in charge of a secretive Pentagon effort to investigate unexplained aerial incursions has co-authored an academic paper that presents an out-of-this-world theory: Recent objects could...

? Shocking Pentagon Announcement: Alien Mothership in Our Solar System! ?? Breaking News! The Pentagon has broken its silence on an alien mothership enter...

CINCINNATI (WKRC) - Pentagon officials released a draft document, saying that aliens could be visiting our solar system, and release small probes to study planets like Earth.

Loeb previously caused a stir when he suggested that an object that had entered our solar system, named Oumuamua (Hawaiian for "scout"), could be a ship carrying intelligence from another galaxy. Oumuamua was a quarter-mile long, cigar-shaped object with properties that perplexed scientists.
