

# Olsen solar energy

Renewable energy is any energy source that is naturally replenished, like that derived from solar, wind, geothermal or hydroelectric action. Energy produced from the refining of biomass is also often classified as renewable. Coal, oil or natural gas, on the other hand, are finite sources. Abundant and unlimited supply!

Although the owners of Olson Solar Energy are our grandsons, we have seen their dedication to their business first hand as they installed a 10kw ground mount solar panel system in August of 2018 on our rural property in West Salem, WI. Both Cameron and Brandon were extremely professional and worked up several different options for the ...
