

# Portable photovoltaic panels

Which portable solar panel is best?

If you need fast solar charging on the go, there's one panel that stands out above the rest. Bluetti's PV350 portable solar panel has a massive solar capacity of 350 watts, so it can collect more sunlight and send more electricity to your devices. It's 75% larger than my best overall pick, the Jackery SolarSaga 200.

Are portable solar panels worth it?

Just a decade ago, consumer-grade portable solar panels weren't effective or popular, but rapid improvements in panel design and solar generators have made them a must for campers, overlanders, RVs, or home backup power. There are now so many foldable solar panels and solar panel kits available that it can be difficult to know where to begin.

How efficient are portable solar panels?

A conversion efficiency of 20% or more is good, with the best portable solar panels often boasting efficiency rates of 22% to 24%. Given the many factors involved, a portable power station can take between two to 48 hours to charge fully from a portable solar panel.

Are portable solar panels smart?

Portable solar panels aren't all that smart. Whatever blast of sun they are getting will be transmitted directly as power to your power station. So before you purchase a portable solar panel, first look at your power station to see how much solar input it can handle.

Are portable solar panels compatible with my portable power station?

There are two specs to check for when looking to see if your portable solar panel is compatible with your portable power station: power potential and connector/port compatibility. Portable solar panels aren't all that smart. Whatever blast of sun they are getting will be transmitted directly as power to your power station.

Are portable solar panels waterproof?

Portable solar panels are waterproof and designed to be used outside to capture sunlight, but the EcoFlow 160W Portable Solar Panel has an IP68 (Ingress Protection 68) rating, one of the highest weather-resistance ratings of all the panels on our list.

Power up on the go with our 300W folding solar panel. Provides even more power while still being portable and easy to transport. Easily charge your smartphones, tablets, laptops and other electronic devices with the integrated USB Type-A and Type-C charging ports. Supplied with 4-foot cable with MC4 connectors.
