Some solar lights will feature adjustable light settings including a power switch and low- or high-brightness levels. For example, our best for shade pick, the T-Sunnus Solar Powered LED Spot Light stands out for its large solar panel and two brightness settings.

Solar lights are powered by internal rechargeable batteries, charged through the day by a solar panel. The brighter the day, the more power is stored by the battery and the longer the light will shine. Light is produced by one or more LEDs; at dusk they turn on automatically, until turning off when the sun comes up. ...
