Who are the best solar companies in the Sunshine State?

Here are our top picks for solar companies in the Sunshine State: Upsides: Since 2009, Momentum Solar has expanded its services around states with well-established net-metering programs.

Does Florida have solar power?

Florida ranks third in the nation for solar energy capacity, behind California and Texas. The state has enough solar installations to power over 1.5 million homes, and yet just over 6% of Florida's electricity comes from solar. This is largely due to Florida's current legislation that prevents power purchase agreements (PPAs).

Does Florida have a solar market?

Florida is the second largest solar market in the U.S., surpassed only by California. Key facts about Florida's solar industry include: Florida installed 2,764 megawatts (MW) of solar power between January and August of 2023. Only California installed more solar capacity during this period with 3,216 MW.
