Is RISE Solar a good company?

The speaker has worked with many solar companies and considers RISE Solar to be the top one. They have installed two solar arrays from RISE Solar at their current home, with a total capacity of 25KW, making their home net energy neutral or even slightly positive.

What is rise energy services?

Rise Energy Services offers professional solutions at affordable prices. We provide consulting to full turn key project solutions. Our energy management division was created to further support our customers, helping them reduce their energy footprint by saving energy and reducing overall operating costs.

How much does a rise Solar System cost?

Arise solar is Eurosolar, and is a joke. Paying \$3.5k for a 6.6kw system, sure do that and get back to us in a few years, hopefully it's functioning well and saving you money. Stick with a reputable installer, there is plenty around Brisbane area. Might cost a little more but at least you know you are getting a decent system with good support.

Is rise solar a dodgy company?

Hi, Arise solar was as dodgy as they come when I was shopping around. Tried to make it out as if he was in Melbourne but I called his bluff after he made a million excuses why he couldn't do a site visit. They pass on the sit visits and charge for them.

Does solar increase resale value?

Texas Association of Realtors research and analysis revealed the average solar system increases the value of the home. After your residential solar tax credit reduces the cost by 20-26%, the TAR showed resale value of the home with solar increased over the cost of your solar panels. How much will it cost out of pocket?
