

Romanian energy storage container sales point

Does Romania need a strategy for energy storage?

Based on the EU context and planning a significant uptake of renewable energy sources in its electricity mix over the following decades, Romania must also develop a strategy for the deployment of energy storage technologies.

Does Romania have a storage policy?

In response to EU Regulation 2019/943, which clarifies the role of storage and its ownership status, the Romanian authorities transposed in Law 155/2020 (amending Energy Law 123/2012) specific provisions related to new storage facilities and their management rules.

Is ETES a viable solution for the Romanian energy sector?

With only one ETES large-scale facility currently operating in Hamburg, Germany, there is significant potential for replication. Versatility and scalability make ETES a solution for increased flexibility in the Romanian energy sector.
