

Sell old lithium batteries

Should you buy or sell scrap lithium ion batteries?

Governments want people to buy and sell scrap batteries to keep the planet green. As a result, scrap lithium ion batteries should be bought. Recycling companies should buy or sell scrap lithium ion batteries. You can buy or sell your scrap lithium ion batteries at Interco for recycling purposes.

How are lithium ion batteries recycled?

First, recycling companies buy or sell scrap lithium ion batteries. As a result, the recycling companies get cobalt, nickel, and copper. Before the recycling process can begin, companies need to deactivate the batteries (especially if it is an EV battery). Lithium ion batteries are put in a specialized room.

What types of batteries do you buy for scrap recycling?

Scrap Battery Buyers purchase lithium-ion batteries, lead-based batteries, forklift batteries, and nickel batteries for scrap recycling. If you are looking for current prices for scrap batteries, Rockaway Recycling can provide you with the information you are looking for.

Is battery recycling worth it?

Battery recycling is always worth it, no matter the price. However, if you want to cash in on your scrap batteries, it is a good idea to understand why the prices fluctuate. Knowing the reasons behind these ups and downs in the scrap battery market can help you make the best decision for your business when it comes to scrapping used batteries.
