The solar panel is intended for installing right next to the camera, so it would be 13 inches. Our Help Center page on installation has a picture of it already installed. And we don't have detailed page for the Solar Panel right now. I'll suggest it to our website team. - Johnny M. SimpliSafe Home Security

I agree - the mounting system that Simplisafe uses for the solar panel is **ABSOLUTE CRAP**. I actually am recommending **AGAINST** anyone buying the Simplisafe branded panel until they fix this. There are tons of compatible panels available online that have a mount that **WORKS**. Applying the crappy plastic disc to a brick wall essentially ensures that ...

The solar panels work perfectly as described. The key is to have the batteries fully charged before relying on the solar panel to trickle charge them. The solar panel does not act like a wall charger, it only maintains an already full battery. Pro tip: You can use one solar panel for two outdoor cameras if you get a mini-USB splitter.

By popular demand, we're bringing a new feature that makes your SimpliSafe Wireless Outdoor Camera even better! Performance Mode kicks in automatically when your camera is plugged into a power source - either through the Power Adapter, or the Solar Panel Accessory - and the battery is at least 90% charged. While the feature is active, your camera ...

This solar panel offers a 360 degree adjustable mount that allows for maximum sunlight exposure. Set up is easy, just mount the solar panel and plug in the charging cable. Weather resistant, works in 32°F to 120°F and ...

The Solar Panel is designed to keep your SimpliSafe Wireless Outdoor Camera topped up - and with up to 12 hours of direct sunlight, it shouldn't be having trouble with that. What it does suggest to me is that your cameras are both using up way more power than they should.

Customers are enthusiastic about the Outdoor Camera Solar Panel for its ease of installation and its ability to keep their security cameras charged. Customers mentioned that the setup process was outstanding and that the solar panel keeps their cameras at 100% battery life. This summary was generated by AI based on customer reviews.

If your Outdoor Camera and Solar Panel are currently situated where sunlight is limited, it might help (if it's possible) to temporarily reposition the Solar Panel for longer exposure - to increase the amount of charge they can collect. Or you may want to consider using a Power Adapter accessory, which can provide constant power even at night.

Installed solar panel in May 23. I live in FL so plenty of sun exposure. Last week system shut down that camera for low battery. Climbed ladder (73yr old widow, reason I purchased panel) battery wouldn't recharge, so plugged directly into outlet.

**NONSTOP SOLAR POWER** - This Wasserstein Solar Panel provides your SimpliSafe outdoor camera battery with 2W and 5V of efficient solar power. **VERSATILE MOUNTING** - Our unique 360-degree mount allows you to adjust to the best angle for maximum sunlight to charge your SimpliSafe battery outdoor camera.
