How do I choose a Fresno solar company?

Seek out Fresno solar companies that have a minimum of 3.5 out of 5 stars in customer ratings on Google Reviews and similar review websites. The company should also have a positive rating on Better Business Bureau (BBB). You should read through past customer reviews to get insight into other homeowners' thoughts about the company.

Is Fresno a good place for solar power?

Places with more sun tend to have a broader range of price options. With an average of 277 days of sun per year, Fresno is a prime location for solar power. There are many solar companies in California that service Fresno from Tower District to Roosevelt and beyond or anywhere else. We reviewed them to let you know what companies are the best.

Are solar panels a good investment in Fresno?

Although solar panels call for a major upfront investment, you can reduce your energy bills over the long run. According to the U.S. Energy Information Administration (EIA), transitioning to solar energy allows Fresno homeowners to save \$1,100 on average each year. Different solar companies provide different services.

The average cost of solar panels in Fresno is about \$13,650 for a 5-kW system and \$27,300 for a 10-kW system before the ITC, but the actual cost will depend on certain factors such as the model of solar panels you want, what size system you need and how much energy you use. Is cost the most important thing to think about when buying solar panels?
