We look for solar companies with owners who understand that when they sell you a solar system, you expect them to be there for the next 25 years to fix any issues that may arise. Here are the top companies we recommend for solar in Missouri: Purelight Power is the top-rated and largest solar company in Oregon and Iowa.

Does Missouri have solar panels?

Maybe one installer included shading from a tree, while another based its estimates on having that tree removed. Missouri is located in the Midwest Region of the U.S., and much of the state is prone to long, hot summers. Missouri gets an average amount of sunshine, so solar panels can produce enough energy to cover electricity costs.

What solar incentives are available in Missouri?

The most significant incentive is the 30% federal solar tax credit, available to any taxpayer in the country when they purchase solar panels or battery storage. Some states and utility companies offer additional solar incentives, saving homeowners even more money. Here are the solar incentives available in Missouri:

Should I get a solar battery in Missouri?

The Show-Me State is also prone to tornadoes; having a solar battery could give you peace of mind during a storm in which downed power lines could occur. Here are some Missouri companies that install panels and solar battery storage systems: Picking a solar company is the most important decision you make when going solar.
