How do I choose a solar company in Hartford?

Make sure to compare companies and get quotes before you book your solar panel installation. When looking into Hartford solar companies, find those with a minimum of 3.5 out of 5 stars on sites like Google Reviews and similar platforms, as well as a positive reputation on Better Business Bureau (BBB).

Are solar panels a good investment for Hartford homeowners?

Whether you'd like to lower your electric bills, carbon dioxide emissions or both, solar panels are a great investment for many Hartford homeowners. Adopting green energy can greatly impact both the environment and your power bills. To see how much, use the calculator below. You can also view our solar panel cost guide for Hartford, CT.

How much does solar cost in Hartford?

Opting for accessories such as batteries, animal guards or solar trackers will increase the overall cost. According to data from NASA, the EIA and the Bureau of Labor Statistics (BLS), installing solar panels in Hartford generally runs about \$12,323. How much can you save by going solar in Hartford?

How do I get a high-quality solar panel installation in Hartford?

To perform a high-quality solar panel installation in Hartford, Connecticut, you'll need to hire a properly certified, qualified and experienced solar installer. We've compiled a list of the leading solar companies in Hartford to help you find the right one.

How do I know if I need solar panels in Hartford?

Electricity consumption: The average household in Hartford doesn't use much energy, and consequently may not see as many savings on their power bills. Your location: This affects how much sunlight your roof receives, which helps determine how many panels you need. Your income and budget: This guides what model of solar panels you can buy.

If you pay for your system with cash, you'll save about \$100,434 over 25 years (the warranty term of most solar panels) on electricity costs with a 5 kW system in West Hartford, CT. We generate this estimate based on real solar quote data from our Marketplace. It considers your system's cost, the federal tax credit, and inflation rates.
