All Energy Solar is a trusted leader in the solar energy industry in Iowa, Massachusetts, Minnesota, New Hampshire... Based in Brookfield, WI - we specialize in residential roof mounted solar installations.

How do I choose a Milwaukee solar company?

Focus your search on Milwaukee solar companies that have at least 3.5 out of 5 stars in customer ratings on Google Reviews and other review platforms. The company should also have a positive rating on Better Business Bureau (BBB).

How much does solar cost in Milwaukee?

The average price of solar is about \$2.08 to \$3.12 per watt in Milwaukee, so anything in that range is a fair price. Some prices may be too good to be true. If your installer quotes you way below the average price in your area, proceed with caution. Installers must charge fair prices to remain in business and provide you with 25 years of support.

Are solar panels a good investment in Milwaukee?

You can find a local solar company in Milwaukee or go with an established national brand. Even though solar panels are a big upfront investment, you can cut your energy bills over the long run. The U.S. Energy Information Administration (EIA) reports that switching to solar energy allows Milwaukee homeowners to save an average of \$1,600 per year.

Should you switch to solar energy in Milwaukee?

The U.S. Energy Information Administration (EIA) reports that switching to solar energy allows Milwaukee homeowners to save an average of \$1,600 per year. Solar companies do not all have the same services and products. You should assess different companies and get quotes before arranging your solar panel installation.

Should you get a solar loan in Milwaukee?

Solar loans are popular among homeowners because you don't have to have the money for the installation upfront, but you get better lifetime savings than with a leased system. You also get to directly use the incentives (tax credits, rebates, etc.) available in Milwaukee, rather than a leasing company retaining them.
