

# Solar electrical supply

Who is solar electric supply?

Whether you're looking to power a home, a business, or a large-scale industrial project, Solar Electric Supply is your go-to partner for all your solar energy needs. From grid-tie to off-grid, residential to commercial, we provide tailored solar solutions to meet your specific energy requirements .

Should I buy a solar energy system?

Purchasing a solar energy system is a good option if one or more of the following apply to you: You have the upfront capital to purchase the system or access to a capital through a lender (note: many banks, utilities, and solar installers offer financing arrangements for solar systems).

Where can I get a quote for a solar energy system?

altE is the #1 online source for solar energy systems, education, and installation support. Not sure what you need? Contact us to get a custom quote. Tired of power costs and shortages? Lower your carbon footprint with grid-tie and off grid systems designed to perfectly suit your needs. Not sure what you need? Contact us to get a quote.

Why should you buy a solar system?

Generate your own clean energy from the sun for free with solar. Add Powerwall to store your energy for use anytime you need it. Tax incentives and flexible financing options ensure you get the best price for your solar system. Power your home with emissions-free, renewable energy directly from the sun.

Should I buy a solar energy system with cash or a loan?

Purchasing a solar energy system with cash or a loan is the best option when you want to maximize the financial benefits of installing solar panels, take advantage of tax credits, and increase the market value of your home, and a solarize program is unavailable or impractical.

Why do you need a solar panel?

Solar panels generate energy for you to use in your home. When paired with Powerwall, you can store your excess energy for use whenever you want. As severe weather becomes more common and the grid less reliable, Powerwall can keep your lights on when outages occur. Solar panels generate energy for you to use in your home.

Your solar energy installer and local utility company can provide more information on the exact steps you will need to take to power your home with solar energy. Investigate your home's energy efficiency. Assess your solar potential and any ...
