What to Look For in Outdoor Solar Lights Type . Based on their light output, outdoor solar lights fall into three general types: motion-activated, dusk-to-dawn, and timer-controlled. Because of solar cell size and battery capacity, the solar energy gathered is a limited resource, so consider when you want the lights to shine and for how long.

How Outdoor Solar Lights Work . Generally, solar lights need about six to eight hours of full sun exposure to work efficiently at night, but they could need more or less depending on the type and brand. "They consist of a solar panel, a rechargeable battery, and LED bulbs," says the team at Brightech, a contemporary lighting company. "During ...
