How do I choose a Louisville solar company?

Seek out Louisville solar companies with a minimum of 3.5 out of 5 stars on Google Reviews and similar customer review platforms. The company should also have a respectable rating on Better Business Bureau (BBB). You should read through past customer reviews to get insight into other homeowners' experiences with the company.

Are solar panels a good investment in Louisville?

Although solar panels require a substantial initial investment, you can cut your energy bills in the long run by making the transition. According to the U.S. Energy Information Administration (EIA), moving to solar energy allows Louisville homeowners to save a yearly average of about \$1,700. Many solar companies offer different products.

How much does solar cost in Louisville Ky?

The average price per watt of solar power in Louisville, KY is \$2.84/W. These prices are before incentives. After the federal solar tax credit, the final cost will drop by 30%, down to \$27,252 for a 13.73 kW system. Many states even offer local rebates and incentives that lower the price further--sometimes by thousands of dollars.

How do I choose a solar company in Kentucky?

Kentucky homeowners who opt to install solar panels on their home should make sure to shop around for a provider that meets their specific needs. That means before deciding on one company, make sure to read solar company reviews, request references, licenses and certifications, financing and warranty options.
