

Solar energy partners bbb

Who is energy service partners?

Want a quote from this business? Energy Service Partners (ESP) is a solar panel installation company serving homeowners and sales partners in the state of California. This business is in an industry that may require professional licensing, bonding or registration.

Is venture a good solar company?

Venture has an A+ rating and accreditation on its BBB profile. According to customer reviews, the company provides high-quality workmanship on its solar panel systems and good customer support. However, some customers have raised concerns about the pricing and quoting process.

Who is the best solar company in the northeast?

LGCY Power: LGCY Power provides one of the best guided solar consultations and offers detailed online articles covering the solar installation process. The company also partners with Sunrun, one of our picks for top solar companies. Trinity Solar: Trinity Solar has served the Northeast for more than 28 years.

Who is the best solar company?

Freedom Solar is our top-rated solar company due to its customized, high-performance panels. We also like Blue Raven Solar as a contender because it provides competitive rates on high-efficiency systems and has one of the best financing programs for solar.

Does venture offer solar panels & battery installation services?

Solar Equipment and Services (16 out of 25 points): Venture offers solar panel and battery installation with active monitoring. The company lost points in this category because it doesn't provide EV chargers, solar roof installation services, energy audits, and roof repairs.

What is your experience with energy service partners?

Our experience with Energy Service Partners has been the worst experience of our home ownership. We signed our contract in March 2022. After several delays, the installation was completed in June, but it wasn't functional. The subcontractors didn't use the proper inverter, which wasn't discovered until months after the installation.
