DIY Rooftop Solar Panel Kits. Rooftop solar panel systems make use of your home's rafters to support the weight of the solar array. Roof mount systems are the standard choice for most home solar installations, as they are the most convenient and cost-effective option available.

Solar kit home

Space-Saving Starter Set: 2kw Diy Solar Kit with Microinverters. This 2000W microinverter kit serves as a great entry-level option. The five 400W modules produce enough energy -- 175 to 375 kilowatt (kW) -- to offset small and medium size loads such as lighting, television and kitchen appliances while taking up little roof space.
