

Solar panel companies near carlow

Why should you invest in solar panels in Carlow?

Solar energy increases energy independence, reducing the need for imported fuels. This shift supports the local economy and strengthens energy security. Investing in solar panels in Carlow helps build a more sustainable future. At Going Solar, we ensure a smooth solar panel installation process for our customers.

Do solar panels work in Northern Ireland?

Ireland, usually, gets between 1100 and 1600 hours of sunlight each year. With this large amount of UV light, solar panels can produce adequate renewable energy to power your home. Northern Ireland is quite similar to the English Midlands, where solar photovoltaic (PV) systems have grown significantly in recent years.

Why should you switch to solar energy in Carlow?

Solar panels create clean energy using sunlight, which reduces greenhouse gas emissions. By switching to solar energy in Carlow, you help cut down on carbon emissions, playing a part in tackling climate change. Solar energy lowers our dependence on fossil fuels, which are limited and harmful to the environment.

Do solar panels add value to a Carlow based property?

Solar Panels provide an environment friendly source of energy and in turn will impact positively on your home's BER Rating. A Solar Panel system installed by SolarPlus will make your home more attractive to potential property buyers and will add value to the saleable price of your Carlow based property.

Can you get a solar energy grant in Ireland?

The Sustainable Energy Authority Of Ireland (SEAI) currently offers homeowners very generous grants up to EUR2,400 towards the cost of supply and installation of PV solar panels. Plus, there is an additional grant available of EUR600 towards the cost of a storage battery to help you get the most out of your system.

Is Northern Ireland a good place to buy solar power?

Northern Ireland is quite similar to the English Midlands, where solar photovoltaic (PV) systems have grown significantly in recent years. Being the most plentiful and cleanest green power source, solar electricity is gaining popularity among Irish homes and companies.
