The Solar Outlet is your specialist "one stop shop" for DIY solar panel kits, inverters and accessories, with a superb range of solar panels and ancillary products in stock sourced from the most trusted names in the renewables ...

The first part is the power optimizer, which handles DC to DC and optimizes or conditions the solar panel's power. There is one power optimizer per solar panel, and they keep the flow of energy equal. For example, with a standard string inverter, if one solar panel produces less energy, all the solar panels in that string will produce less energy.

This solar panel kit includes 9BB solar panels, an MPPT solar charge controller, inline fuses, wiring, and mounting hardware - basically everything included in the Renogy Complete Kit, with the exception of the battery storage and inverter.
