

Solar power company comparison

How are solar companies rated?

After over a thousand hours of research on solar companies, interviews with experts, and common customer needs, we've created a detailed rating system for solar providers based on six factors: Total scores are divided by 20 for a final 5-point rating scale.

Who are the best solar installation companies?

We selected Freedom Solar, Blue Raven Solar, and Palmetto as our top three choices for solar installation companies, with Freedom Solar getting our top vote. See how we compared these companies and other top-rated providers in our review.

What factors should you consider when comparing solar companies?

Keep the following factors in mind when comparing solar companies. Solar companies use in-house teams or third-party contractors to complete their projects. In-house teams offer better communication, quality control, and efficiency. Third-party installers have varied installation quality and require contact with an external project manager.

What makes a good solar company?

All the solar companies on our list scored at least 4 out of 5 stars against our rating scale, so they all have stellar reputations for quality products and high performance. Their warranty coverage, financing options, and specific panel performance and efficiency are what sets them apart. What Should I Know About Going Solar in FL?

Which solar companies offer the best in-house financing?

Financing Options (12 out of 15 points): Blue Raven offers some of the best in-house financing of the companies on this list, but it limits this financing to solar loans. You may want to consider a different provider, such as Sunrun, if you're looking for a lease or PPA.

Which solar company has the best customer satisfaction?

Our pick for best customer satisfaction is Blue Raven Solar. The company scored 4.3 stars out of 5, has an A+ rating through the BBB and has high customer reviews. Blue Raven Solar started in 2015 and now has more than 3,000 team members working to provide top solar services. Mobile App? Free Energy Consultation?

With average project costs of around \$24,000 to \$29,000, SunPower's panels can be a bit more expensive than many competitors' products. But you certainly get significant value for your money.

We got a bad batch of panels (installed in 2013-2014). Getting Trina to send new panels took 1.5 years. I'm not sure if the breakdown was our solar service company (solar service help), or installers (Verengo - now bankrupt and sold assets Crius) or Trina but there's no reason it should have taken 1.5 years to get new panels.
