Here are our picks for the best solar phone chargers on the market. 1. Best overall solar charger: BigBlue 28W USB solar charger Compatibility: Most 5-volt USB rechargeable devices, including iPhones and Androids. Not compatible with the iPad Pro. 2. Best budget charger: BLAVOR Qi Solar Power Bank Portable Charger

Should you buy a solar phone charger?

When shopping, keep in mind that solar phone chargers come in many shapes and forms, including ones that directly replenish your phone's battery while the sun is strong and bright, as well as those that can store power during the day for use at a later time.

Should you use a portable solar panel Charger?

Typically, portable solar panel chargers are meant to function as a source of backup power, not as the primary way to charge your phone every day because of their slow charging speed. The quality and efficiency of solar-powered phone chargers are getting better all the time.

What wattage should a solar phone charger be?

A wattage between 10 watts and 15 watts of power is a good rule of thumb when looking for a solar phone charger. The size of your charger is important! Because you'll generally be using a solar phone charger on the go, the size and weight are important.

Can a portable solar charger charge a smartphone?

Let the sun charge your smartphone, power bank, and most other 5V USB-powered devices with this foldable and efficient portable solar charger. The Blavor 10W portable solar charger is a robust, foldable solar charger that offers just enough juice to keep a typical smartphone topped up.

Which solar charger is best for iPad Pro?
