

Solar system costume ideas

DIY Solar System Costume . This colorful costume uses tie-dye techniques to make a galaxy-themed backdrop on a shirt. Suitable for both kids and adults, it requires affordable materials like black cotton shirts, bleach, and tie-dye colors.

The rings of Saturn or the blue and green beauty of Earth inspire creative Halloween costume ideas. If you want to dress up as a planet, there are several approaches available. Choosing a planet with a distinctive visual cue, like Jupiter with its great red spot, will help your costume make sense without explanation.

I am a huge fan of all things space, so for my Halloween homemade Solar System costume I decided to embody my love for the our solar system. To start, I went looking for any and all space theme fabrics I could find. I decided on a galaxy print as the base, and was lucky enough to find another fabric that had all of the planets printed on it, of ...

Costume Ideas Costume Ideas; ... the "Solar System" costume creator: My son is 4 and obsessed with the Solar system. So, I wasn't surprised when he told me that is what he wanted to be for Halloween. A few trips to the craft store and a couple days work and this is what we created!
