The Renewable Energies Summer School consists of the following two seminars. The seminar is geared mainly towards students with a technical background, particularly the engineering sciences. This Environmental Engineering course focuses on the specific subject area Renewable Energies.

What is Summer Energy?

Summer Energy is a subsidiary of Summer Energy Holdings, Inc. with extensive experience in the energy industry. Its employees and management have experience in the Texas power market, enabling the company to offer reliable, low-cost solutions to customers in areas like Dallas/Fort Worth Metroplex, Houston, and Corpus Christi.

What is energy renew?

Energy Renew is an energy-boosting powdered formula from Gundry MD. Formulated by Dr. Gundry and the Gundry MD team, Energy Renew is designed to support all-day energy in multiple ways. As you get older, energy levels naturally drop. You may not have the physical and mental energy you used to have. You may feel mentally foggy throughout the day.

What types of energy plans does summer energy offer?

Summer Energy offers several types of energy plans. Fixed rate plans provide a fixed rate for the energy portion of your bill, quoted in cents per kilowatt-hour and including pass-through expenses from the Transmission and Distribution Utility. Other types of plans include variable rate plans and green plans.

The summer schools will be provided during Summer 2023. The WDTS RENEW Pathway Summer Schools will join the existing DOE SC portfolio of research internships, summer schools, and fellowships for all educational levels, ranging from high school to established faculty.
