Sunshine Hydro's vision is to play a key role in decarbonising the planet using technology and have re-imagined long duration energy storage projects to deliver 24/7 carbon free energy. Michael is a serial entrepreneur with venture capital experience in start-up ventures and sustainable development.

About AESOP technology. Sunshine Hydro's proprietary technology AESOP, Advanced Energy storage Optimising Program, automates the pumped hydro system, deciding when to pump the water to the high reservoir, release water to the lower reservoir and what mix of the energy produced is provided to the grid or used to produce other energy project, such as hydrogen.

The battery storage system is fed by the FPL Sunshine Gateway Solar Energy Center, a 74.5 MW facility sitting on over 900 acres located near the intersection of I-10 and I-75. The solar plant generates zero-emissions for FPL customers and generates enough renewable energy to power approximately 15,000 Florida homes.

Hydrogen projects backed by large companies like Fortescue and Woodside are set to be early beneficiaries of the federal budget's \$6.7 billion production tax credit, but one developer says the measure will attract a lot of ...

The North America and Western Europe (NAWE) region leads the power storage pipeline, bolstered by the region's substantial BESS segment. The region has the largest share of power storage projects within our KPD, with a total of 453 BESS projects, seven CAES projects and two thermal energy storage (TES) projects, representing nearly 60% of the global ...

2 &#0183; Jinrong Zulin Wang () reported that the average price of energy storage battery cells dropped from 0.90 RMB to 1 RMB (US\$0.13 to US\$0.14) per watt-hour at the beginning of 2023 to 0.40 RMB to 0.50 RMB per ...

This year marks the 50th anniversary of the Sunshine Project, Japan's first long-term, comprehensive research and development project for new energy technology. Since 1974, it has played a pioneering role in the development of renewable energy technology worldwide. The Sunshine Project 50 Years Anniversary Symposium will be held on June 20th.

On April 22, 2024, the U.S. Environmental Protection Agency (EPA) awarded the Connecticut Department of Energy and Environmental Protection (DEEP) with a \$62.45 million grant under its Solar for All initiative, including \$400,000 of in kind services from EPA in the form of technical assistance. Project SunBridge will focus on increasing access to storage and solar for multi ...

HOUSTON, Jan. 5, 2023 /PRNewswire/ -- Energy Toolbase has deployed its Acumen EMS(TM) controls software on an energy storage system with Sunshine, a Costa Rica-based solar development company.
