

# The latest oil storage news today

Why did oil prices fall on Friday?

Oil prices settled higher on Friday but fell on the week as investors weighed expectations for higher global supply against fresh stimulus from top crude importer China.

Why did oil prices drop 2% on Wednesday?

Oil prices slumped over 2% on Wednesday as worries over supply disruptions in Libya eased and demand concerns continued despite China's latest stimulus plans.

Why did UBS cut its oil price forecasts for 2024?

UBS cut its oil price forecasts for 2024, citing a weaker global demand outlook especially driven by a slowing Chinese economy. Oil prices climbed more than 2% on Wednesday, driven by fears of lengthy production shutdowns in the U.S. offshore oil patch, which Hurricane Francine was barreling through on the way to landfall in Louisiana.

Oil prices held at a 14-month low on Thursday as worries about demand in the U.S. and China and a likely rise in supplies out of Libya offset a big withdrawal from U.S. inventories and a delay to ...
