Science fair posters that are a tri-fold poster board will stand up by itself on a table when the two flaps of the tri-fold are opened up. Since there is a table, you can use the table to display your science fair project results, if it's possible to bring to the science fair. Congratulations on finishing your science fair poster!

It's that time of year. Students are finishing up hands-on science projects for class or for the science fair, and the thing that stands between them and completion is a large, cardboard, tri-fold board. It's just a piece of cardboard (or maybe foam board), but for many students, the Project Display Board requirement is intimidating.
