3 days ago; When solar panels produce more electricity than your home needs, you can earn money by selling excess energy to your retail electricity provider through a solar buyback plan. If you have solar panels, this plan type can help offset your electricity costs and reduce your carbon footprint. Learn more about solar buyback plans in Texas and if they're worth it for you.

Solar Buyback Match pays higher buyback credits and is designed for homes that send more excess energy to the grid, or "net exporters." Solar Buyback Saver has a lower energy rate and is designed for homes that use more energy from the grid, or "net consumers." Here's a quick comparison to help you find the right fit for your system.
