

Un3480 lithium ion batteries label

What is a un3480 & un3481 lithium ion battery label?

1. UN3480: Lithium-Ion batteries This label is used for shipments containing only lithium ion batteries. It applies to standalone lithium ion batteries that are not packed with or contained in equipment. 2. UN3481: Lithium-Ion batteries contained in or packed with equipment

What is a UN number for a lithium ion battery?

UN Number: This indicates the type of battery and its associated risks. For example, "UN3480" for lithium-ion batteries shipped alone, and "UN3481" for lithium-ion batteries contained in or packed with equipment. Text: A telephone number for additional information. 3. Materials

What is a un3090 lithium ion battery?

This label is used for lithium ion batteries that are either packed alongside equipment or installed within equipment. For example, a laptop with its battery installed or a device with a separate battery pack in the same package. 3. UN3090: Lithium metal batteries

How important is un3480 / un3090 packaging for lithium batteries?

In Summary The importance of UN3480 / UN3090 regulations Failing to use the right, UN3480 compliant packaging for shipment of lithium batteries could have dire consequences for your business.

What is a 3480 or 3481 lithium ion battery?

UN-No: 3480 or 3481 Lithium-Ion Batteries and Lithium-Ion batteries contained in equipment or packed with equipment. 07: ADR/RID Requirements Transit by road

What happens if you don't use un3480 compliant packaging?

Failing to use the right, UN3480 compliant packaging for shipment of lithium batteries could have dire consequences for your business. This could extend to significant fines, jail sentences for individuals within your organisation and the reputational damage of having caused a (potentially fatal) accident.

4 o Lithium metal (LiM) o are generally non-rechargeable (primary, one-time use). o have a longer life than standard alkaline batteries o are commonly used in hearing aids, wristwatches, smoke detectors, cameras, key fobs, children's toys, etc. LITHIUM BATTERY TYPES There are many different chemistries of lithium cells and batteries, but for transportation purposes, all lithium ...

containing both lithium ion cells and lithium metal cells must be shipped as UN 3090 or UN 3091, as appropriate. Note 1 - A small "hybrid" battery may not contain more than 1.5 g of lithium metal contained within all

UN3480, Lithium Ion Batteries / Cells - PI965 Section IA. Packaging: Each battery /cell must be protected

Un3480 lithium ion batteries label

against a short circuit and placed in an inner packaging that completely encloses the battery /cell, then placed in a strong rigid outer packaging.

What is the difference between UN3480 and UN3481? The easiest way to explain this is that a laptop would be considered UN3481. The lithium-ion battery inside the laptop is providing power to the actual laptop (equipment). The battery inside that laptop is classified as UN3480. A battery shipped alone would be classified UN3480.

Lithium ion and lithium polymer cells or batteries - 2022 IATA DGR UN3480 - PI965 UN 3481 -PI966 UN3481 - PI967 Section PI965-Section IB PI966 - Section II PI967 - Section II ...
