

Xantrex backup power

Features Controls/Indicators Operation Specifications. Features. Overview: The Xantrex PowerSource 1800 is a backup power supply with five surge protected outlets, one on the front and four on the back. The five 120 volt AC outlets are permanently backed up by the internal battery and can run multiple devices for up to twelve hours when your electricity goes out.

The Xantrex PowerHub is a combination of an inverter/charger module capable of delivering up to 1800W of household power. It is the first backup power solution to operate with solar and wind inputs. Power from a generator or the utility grid can also be used with the PowerHub system to recharge its batteries.

About Xantrex Xantrex Technology Inc. is a world-leading supplier of advanced power electronics and controls with products ranging from small mobile units to utility-scale systems for wind, solar, batteries, fuel cells, microturbines, and backup power applications in both grid-connected and stand-alone systems. Xantrex

In addition, Xantrex power inverters automatically sense low battery voltage so you never have to worry about a depleted battery. Ideal for damp and humid environments, the XPower 450 is specifically engineered to provide corrosion resistance and short-circuit protection.

A Clean, Green, Backup Power Solution. The Xantrex PowerHub is a combination of an inverter/charger module capable of delivering up to 1800 watts of household power. It is the first backup power solution to operate with solar and wind inputs. Power from a generator or the utility grid can also be used with the PowerHub system to recharge its ...
